Our Search for Belonging: How Our Need to Connect Is Tearing Us Apart by Howard J. Ross and JonRobert Tartaglione

We are living in a time of mounting political segregation that threatens to tear us apart as a unified society. The result is that we are becoming increasingly tribal, and the narratives of life that we get exposed to on a daily basis have become echo chambers in which we hear our beliefs reinforced and others' beliefs demonized.

At the core of tribalism exists a paradox: as humans, we are hardwired with the need to belong, which ends up making us deeply connected with some yet deeply divided from others. When these tribes are formed out of fear of the "other," on topics such as race, immigration status, religion, or partisan politics, we resort to an "us versus them" attitude. Especially in the digital age, when we are all interconnected in one way or another, these tensions seep into our daily

lives and we become secluded with our self-identified tribes. Global diversity and inclusion expert Howard J. Ross, with JonRobert Tartaglione, explores how our human need to belong is the driving force behind the increasing division of our world.

Drawing upon decades of leadership experience, Ross probes the depth of tribalism, examines the role of social media in exacerbating it, and offers tactics for how to combat it. Filled with tested practices for opening safe and honest dialogue in the workplace and challenges to confront our own tendencies to bond with those who are like us, Our Search for Belonging is a powerful statement of hope in a disquieting time.

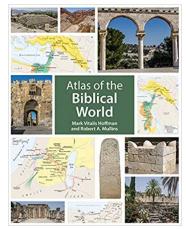

Joy Unspeakable: Contemplative Practices of the Black Church by Barbara Ann Holmes

Joy Unspeakable focuses on the aspects of the black church that point beyond particular congregational gatherings toward a mystical and communal spirituality not within the exclusive domain of any denomination. This mystical aspect of the black church is deeply implicated in the well-being of African American people but is not the focus of their intentional reflection. Moreover, its traditions are deeply ensconced within the historical memory of the wider society and can be found in Coltrane's riffs, Malcolm's exhortations, the social activism of the Black Lives Matter Movement and the presidency of Barack Hussein Obama. The research in this book-through oral histories, church records, and written accounts--details not only ways in which contemplative experience is built into African American collective worship but also the legacy of African monasticism, a history of spiritual exemplars, and unique meditative

worship practices. A groundbreaking work in its original edition, Joy Unspeakable now appears in a

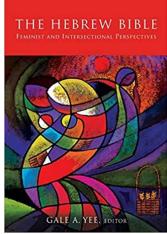

new, revised edition to address the effects of this contemplative tradition on activism and politics and to speak to a new generation of readers and scholars.

The Hebrew Bible: Feminist and Intersectional Perspectives by Gale A. Lee

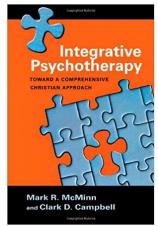

This volume highlights key issues in the Hebrew Scriptures from the perspective of top feminist biblical scholars. This includes historical critical and literary textual analysis and exegesis, particularly as viewed through feminist and intersectional interpretive lenses. Intersectional lenses include the racial/ethnic, class, Global South, postcolonial, and so forth, and their interconnections with gender.

The introduction to the volume by the editor introduces feminist intersectional biblical scholarship, making the case that this scholarship addresses perspectives that are often missing from even very thorough survey texts: feminist and intersectional issues regarding the women characters, sexual assumptions, sexual and domestic violence, symbolization of women, class and race relations, and so forth.

From Topic to Thesis: A Guide to Theological Research by Michael Kibbe

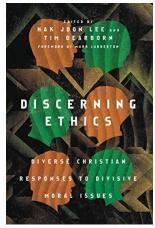

While courses in Bible and theology typically require research papers, particularly at the graduate level, very few include training in research. Professors have two options: use valuable class time to teach students as much as they can or lower their standards with the understanding that students cannot be expected to complete tasks for which they have never been prepared. From Topic to Thesis: A Guide to Theological Research offers a third option. This affordable and accessible tool walks students through the process, focusing on five steps: finding direction, gathering sources, understanding issues, entering discussion, and establishing a position. Its goal is to take students directly from a research assignment to a research argument—in other words, from topic to thesis.

Integrative Psychotherapy: Toward a Comprehensive Christian Approach by Mark R. McMinn and Clark D. Campbell

Founded and focused upon the integration of psychology and the Christian faith, and formed by the insights and hard labor of many dedicated scholars, clinicians, pastors, authors, and educators, Mark McMinn and Clark Campbell present a unique, ambitious, and modest integration model in Integrative Psychotherapy. This textbook provides both a theoretical and theological dimension of integrative psychotherapy that is rooted in Christian biblical and theological teaching and in a critical and constructive engagement with contemporary psychology. Their insights are thoroughly grounded in a biblical understanding of the human condition and of God's grace in Christ and calling on his people.

This foundational work integrates behavioral, cognitive, and interpersonal models of therapy within a Christian theological framework. Not only do McMinn and Campbell integrate Christian faith and spirituality with the latest thinking in behavioral science at a theoretical level, they also integrate the theoretical and academic with the pastoral and clinical, offering a practical guide for the practitioner. For thoughtful Christian counselors, psychologists, scholars, and seminarians, Integrative Psychotherapy is an indispensable and inspiring resource.

With an unflinching yet irenic approach, this resource can help Christians as they seek to act justly, love mercy, and walk humbly with God.

Emptiness: Feeling Christian in America by John Corrigan

For many Christians in America, becoming filled with Christ first requires being empty of themselves—a quality often overlooked in religious histories. In Emptiness, John Corrigan highlights for the first time the various ways that American Christianity has systematically promoted the cultivation of this feeling.

Corrigan examines different kinds of emptiness essential to American Christianity, such as the emptiness of deep longing, the emptying of the body through fasting or weeping, the emptiness of the wilderness, and the emptiness of historical time itself. He argues, furthermore, that emptiness is closely connected to the ways Christian groups differentiate themselves: many groups foster a sense of belonging not through affirmation, but rather avowal of what they and their doctrines are not. Through emptiness, American Christians are

able to assert their identities as members of a religious community.

Drawing much-needed attention to a crucial aspect of American Christianity, Emptiness expands our understanding of historical and contemporary Christian practices.

Howard Thurman's Philosophical Mysticism: Love Against Fragmentation by Anthony Sean Neal

African American Philosophy and African American Philosophers have played a central role in understanding and also shaping what it means to be black in America. Some of their conclusions were reactions to the mistreatment they received from the majority population, but other of their conclusions were extensions and/or novel positions taken with a view through past perceptual lenses. Yet, with the mass exodus of black students from HBCU's after the civil rights era, many of the important figures and their inquiries have been little or poorly studied. The significance of this work is found in its attempt to grapple with one such seminal figure, his memory of his ancestors, and the education he received from Morehouse College (in the Atlanta University Center), all of which formed the roots of the ideas he later produced. Howard Thurman, former Dean

of Marsh Chapel at Boston University, and mentor to figures such as Martin Luther King, Jr., left quite a large ideological footprint; however, just as others of his milieu, his ideas have been largely overlooked. Thurman's deep-rooted knowledge of black culture, particularly black religious ideas as they existed during the period of African enslavement in the United States and as they were exhibited in the Negro Spirituals, shaped his thinking and allowed him to produce a body of work grounded in the musings and traditions of his ancestors. This volume investigates, forms an analysis, and even critiques Thurman's work such that others can benefit from the profundity of his thoughts while also taking note of their relevance for today's philosophers concerned with humanity.
